H/R - Headroom

TRAILERS INCLUDE A SPARE WHEEL FITTED AS STANDARD

Permanently Closed Lower Vent

Some customers may prefer to have this feature if the trailer is used to transport cattle exclusively. Not suitable for transporting sheep.

The Ifor Williams Coupling Lock

Awarded 'Gold Standard' by Sold Secure. It's use may reduce your insurance premium. Comes with a spare barrel lock to replace the lock inside the coupling head to enable the use of the same key to open both locks. Fits all featured braked trailers.

Hinged Wind Deflector

In addition to the Fixed Wind Deflector, a Hinged Wind Deflector is now available and has all the benefits of a Fixed Wind Deflector and allows stowage of a large cross division on the front of the trailer.

Trailer Aid™

Use it once and you'll never be without it. Used when replacing a flat or punctured tyre. Saves time and energy, no need to use a jack.

P6e & P7e model prices include Livestock Kit as standard. See Unbraked brochure for standard P6e & P7e prices.

All Ifor Williams trailers will come as standard with a 13 pin towing electric plug. This is in order to comply with the requirement under ECWTA regulation changes to provide trailer reversing lights. If your vehicle has only a 7 pin towing socket then a convenient adaptor can be purchased with the trailer to convert the trailer's 13 pin socket back to 7 pin.

13 pin to 7 pin Towing Electric Plug adaptor £8.

Optional accessories have been priced as factory fit items, ordered with your trailer. If ordered at a later date, your distributor may need to fit the items, which will result in fitting charges being incurred.

Prices are ex-works and are subject to delivery charges and the VAT rate applicable at the date of supply.

All trailers are twin axle unless stated otherwise. Coupling locks and wheel clamps can be supplied for all trailer models.

Dimensions and weights are given as a guide only. We reserve the right to alter specifications without notice.
